DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Park (Reg. No. 55,523) on September 16, 2005.

The application has been amended as follows:

Claim 18, line 1, "package of claim 17" should be changed to - - package of claim 10 - - for proper dependency.

Allowable Subject Matter

2. Claims 1-2, 4-16, 18-23, 25-28, and 31-34 are allowed (renumber claims are 1-28).

The following is an examiner's statement of reasons for allowance: the references cited disclose a stack-type semiconductor package comprising a printed circuit board (PCB) having a circuit pattern, first and second devices, a conductive frame having first and second terminal, and some other claimed elements. However, they do not disclose or render obvious in combination of the package having the conductive frame, which is a lead frame, having a plurality of elongated lead parts, each

elongated lead part having a ball land at one end and a lead section at the other end, wherein the ball lands comprise the second terminals and are arranged in a predetermined pattern to correspond to the solder balls of the second device; and further wherein the lead section comprise the first terminals and are electrically connected to the PCB circuit pattern (as recited in claim 1), and the second device is electrically connected to the PCB circuit pattern and the first device via the conductive frame, the conductive frame is a tape automated bonding (TAB) tape, the first terminals are formed at the two ends of the TAB tape and are electrically connected to the PCB circuit pattern, and further the second terminals are formed at the middle portion of the TAB tape and are arranged in a predetermined pattern to electrically connect to the second device (as recited in claim 10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hamaguchi et al. and Suh et al. disclose related art.
